Residential and Commercial

Durable clips used instead of nails and staples

Take down, packing and storage

Any combination of clear, multi or solid color. Traditional C-9, mini or icicle lights available.

Worry Free Guarantee

As long as Klamfoth, Inc. installs our supplied lights and decorations, we guarantee the lights to be in working order throughout the season. Not only will Klamfoth replace all non-working bulbs and strands prior to each year's installation, if any of the decorations fail while they are installed, our crews will make a service call to repair or replace them. **AT NO COST TO YOU!** So instead of worrying about how you are going to get up on the roof to fix those burnt out bulbs, just give us a call and let us take care of it.

Don't let this happen to you – call us (614) 833-5007

How our program works

Klamfoth, Inc. provides an all inclusive, worry free Christmas lighting program that allows you to enjoy the stunning effects of decorating your property. No more climbing on your roof, putting ladders in trees, burnt out bulbs or blown fuses.

The program starts with a free estimate and computer generated image to show what your property can look like. All pricing is done a la carte so you may pick and chose which scheme fits your budget and decorating taste. You can decorate as much or as little as you want.

Once you decide which decorations you want, our trained installers will take care to put up your lights to minimize any of the issues commonly associated with Christmas lights. Power sources are divided up to avoid blown fuses. Non-invasive clips are used for ease of installation and removal. And timers turn the lights on and off so you need not worry about going out in the cold.

Then we will come back, remove the decorations and store them away until next season. All at no extra charge to you!
